ARJUN SHARMA

LEAD AI PLATFORM / AGENTIC WORKFLOWS ENGINEER

Bengaluru, Karnataka, India • arjun.sharma@example.com • +91 98765 43210 • {{LINKEDIN_URL}} • {{GITHUB_URL}}

PROFESSIONAL SUMMARY

Lead AI & Agentic Workflows Architect with 6+ years designing scalable autonomous agent systems, Playwright CDP automation, and LLMOps evaluation pipelines.

TECHNICAL EXPERTISE

Languages & Frameworks: TypeScript, Python, Rust, Go, SQL, React 19, Next.js, FastAPI, Node.js, Tailwind CSS
AI, LLMOps & Automation: LangChain, LlamaIndex, Playwright, Gemini API, Claude SDK, OpenAI APIs, vLLM, Ollama
Cloud, DevOps & Streaming: AWS (ECS, Lambda, S3), Docker, Kubernetes, PostgreSQL, Redis, Kafka

PROFESSIONAL EXPERIENCE

Senior AI & Platform Engineer — **HyperFlow Tech** 2023 - Present | Bengaluru (Hybrid)

- Architected enterprise multi-agent automation platform using Playwright CDP and Gemini 1.5 JSON schema validation, deflecting 42% of manual tier-1 tickets and saving $180k/year in operational overhead.
- Engineered real-time document extraction and RAG pipeline indexing 2.5M enterprise contracts with sub-120ms vector retrieval latency.

Full-Stack Software Engineer — **CloudMatrix Systems** 2020 - 2023 | Bengaluru

- Built mission-critical event streaming gateway in Go and Kafka handling peak loads of 45,000 req/sec with P99 latency under 18ms.
- Mentored 5 junior engineers and established zero-downtime deployment pipelines with Docker and GitHub Actions.

EDUCATION & CREDENTIALS

Bachelor of Technology in Computer Science & Engineering, National Institute of Technology (NIT) 2020 | India

KEY PROJECTS & OPEN-SOURCE

jobSuite Desktop Tauri v2, React 19, Playwright, SQLite

Ultra-efficient Windows native AI Career-Ops app built with Tauri v2, React 19, and Playwright CDP stealth automation.
